

CLAIMS

What is claimed is:

1. A vehicle covering system comprising a flat sheet material of a length sufficient to extend the top length of the vehicle and means for attaching said flat sheet to the vehicle.  
5
2. The vehicle covering system of claim 1 wherein said flat sheet material is a plastic film.
3. The vehicle covering system of claim 1 wherein said flat sheet material is a non-woven fabric.
- 10 4. The vehicle covering system of claim 1 wherein said flat sheet material is opaque.
5. The vehicle covering system of claim 1 wherein said means for attaching comprises a clip attached to a magnet.
- 15 6. The vehicle covering system of claim 1 wherein said means for attaching comprises a clip attached to a suction cup.
7. The vehicle covering system of claim 1 wherein said means for attaching comprises snaps, wherein one side of the snap is disposed on said flat sheet and the other side of the snap is mounted to the vehicle.
- 20 8. The vehicle covering system of claim 1 wherein said means for attaching comprises a hook-and-loop system disposed on an adhesive base, one side of said hook-and-loop system being adhered to the vehicle and the other side of said hook-and-loop being adhered to said flat sheet material.
- 25 9. The vehicle covering system of claim 1 wherein said flat sheet material is supplied in a continuous roll of said sheet material.
10. The vehicle covering system of claim 1 wherein said flat sheet material is supplied in a continuous folded supply.
- 30 11. The vehicle covering system of claim 9 wherein said continuous roll of flat sheet material is disposed in a box.
12. The vehicle covering system of claim 9 wherein said continuous roll of flat sheet material is supplied on a roller which is mountable to the opposite lateral sides of the storage compartment of the vehicle.

**Docket no. RDS001**

13. A vehicle covering system comprising a continuous supply of flat sheet material and means for attaching said flat sheet material to the vehicle.
